

The background features decorative geometric patterns in the corners. The top-right and bottom-left corners contain a grid of small white dots. The top-right and bottom-left corners also feature stylized, overlapping chevron shapes in shades of red, orange, and yellow. The main text is centered on a black background.

Backup

Yes, we are talking about data
backups and more!

Data across on-premises and cloud locations

Managed service?

Entrust?

Is it always possible?

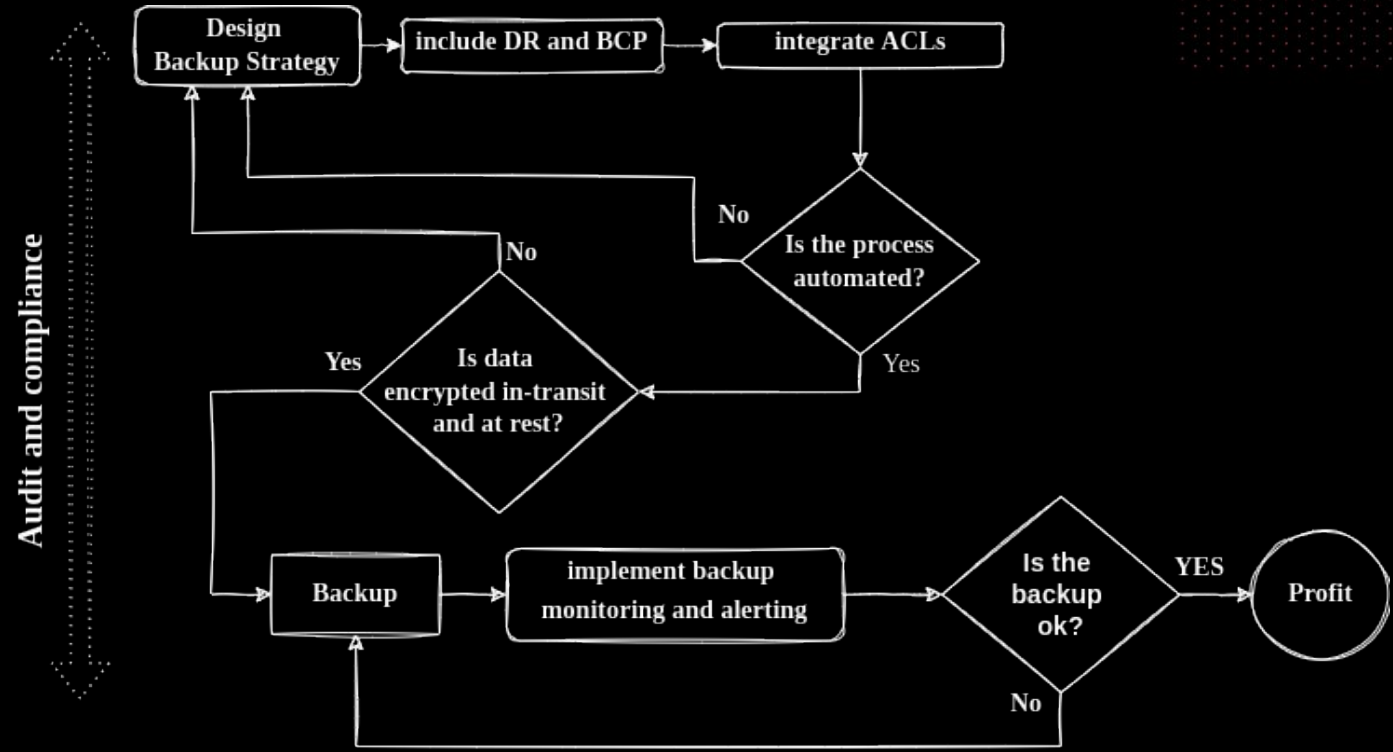

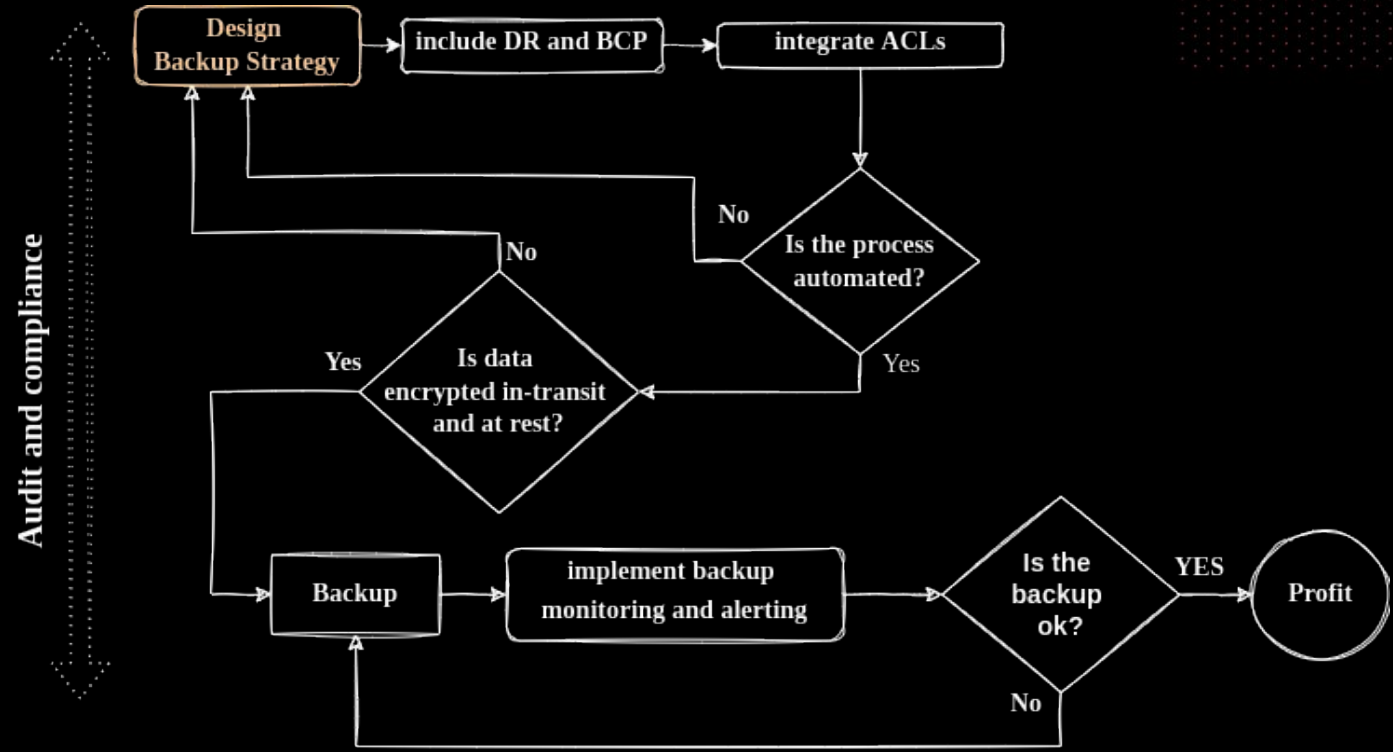

**Suppose you
wanted to address
the issue. How
would you?**

Implementation Tools

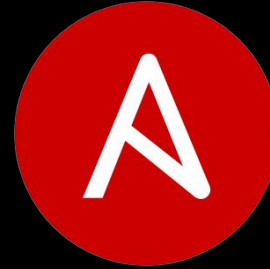

kubernetes

Restic

HashiCorp
Vault

Restic - Modern backup program

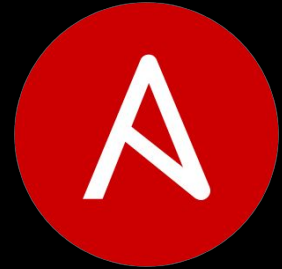

Easily and efficiently backup files to many different storage types, including self-hosted and online services.

Ansible - Open Source Automation Platform

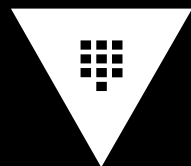

Ansible is an open source IT automation engine that automates provisioning, configuration management, application deployment, orchestration, and many other IT processes.

Vault - Secrets Management Tool

It secures, stores and tightly controls access to tokens, passwords, certificates, encryption keys for protecting secrets and other sensitive data.

HashiCorp

Vault

**All right, let's dive
right in!**

To sum up

Self managed

Hybrid approach

Ease restore operations

Thank You
